optimail

Key Advantages

Postage on Demand With the optimail, accurate postage for your letters and packages will be at your fingertips 24/7. Semi-automatic and ECDSA compliant, this digital postage meter processes up to 32 pieces or 30 letters per minute. It also securely downloads the exact dollar amount of postage needed, directly into the meter.

Fits Into Any Office Environment Small and quiet, the optimail fits conveniently anywhere in your office. Designed to enhance the efficiency and professional image of your business, the back-lit display with soft keys makes it easy to operate with no special training needed.

Cost-saving Features The optimail will add to your bottom line when you use its integrated 3kg scale and optional moistener. Weigh letters and packages for accurate postage every time. It offers a unique account administration function that registers and evaluates postage for nine separate accounts.

A True Marketing Tool The optimail helps you differentiate your business with the ability to print your meter logo and up to six customizable messages or advertisements. Metered mail offers a more professional image to customers and prospects receiving your correspondence.
