Mailpost 1

Ideal for a small office
Whisper quiet in operation
Opens on the long side by slitting on only one side, this eliminates waste trims
Speed up to 400 envelopes per minute
Width of slit 1.5mm upwards
Thickness of envelope up to 6mm
Horizontal feeding so contents cannot be damaged
Horizontal feeding stops contents to drop down and therefore be cut
Simple to operate

Mailpost 125 DT

A fast desktop letter opener economical to buy
Using the milling technique for opening the envelope cleanly and without damage to the contents
Will run continuously through to the day
Will handle all sizes envelopes mixed loading of envelopes without problems
Easy to operate
Trim collected drawer in the base
Counter included
Width of mill 0-2 mm
Speed choice
Thickness of envelope up to 7mm
Footprint on the desk makes up only a small area and catchment tray is portable as it is the machine so to maximise working area
Trim bin incorporated in stand

Mailpost 125 WS*

A fast heavy-duty letter opener using the milling technique for opening envelopes cleanly without damage to the content
